SATISFACTION GUARANTEED

We are located in the heart of the New York Cut Flower Market. We have nine men on the road traveling extensively in nearly all sections of the country. Our position, for over 28 years, has been one of daily contact with the grower and his needs.

This catalog, we believe, is full evidence in itself of our long established plan to render a complete service to the grower in a full line of Seeds, Bulbs, Plants, Cuttings, Insecticides, Fertilizers, etc. At all times we invite inquiries as to prices and all other information.

PLANTING TABLE FOR COLD STORAGE LILIUM GIGANTEUM AND FLOWERING DATES

Planting Date	Flowering Date	Planting Date	Flowering Date	Planting Date	Flowering Date
January 1.....	April 15 to 25	April 1.....	July 15 to 30	July 1.....	October 1
January 15.....	April 25 to May 5	April 15.....	August 1	July 15.....	October 15
February 1.....	May 15 to 30	May 1.....	August 10	August 1.....	November 1
February 15.....	June 1 to 10	May 15.....	August 20	September 1.....	November 25
March 1.....	June 10 to 30	June 1.....	September 1	September 15.....	December 15 to 25
March 15.....	July 1 to 10	June 15.....	September 15	October 1.....	January 1 to 10

If LILIUM SPECIOSUM RUBRUM or MAGNIFICUM are planted on the above dates it will take six to eight weeks longer to flower them than the Lilium Giganteum.

Lilium Rubrum or Magnificum should be planted June 15 to July 1 to flower for Christmas.

The above are all approximate flowering dates. If we have extremely warm weather they may flower a week earlier. It all depends on the weather conditions.

IRWIN'S CARNATION INTRODUCTIONS ARE DEPENDABLE

Mr. Carnation Grower:

For over 25 years, Carnations have been one of my specialties. In 1934 I introduced "Virginia" and had exclusive sale for two years. Virginia immediately took its place as a leader of the light pinks and still retains top ranking. Growers tell us year in and year out that it continues to be one of the best money makers.

In 1938 Gardenia Carnation made its debut as the largest white yet introduced. It is one of the most attractive of the Exhibition varieties and on account of its unusual fragrance, resembling the Gardenia after which it was named, it can easily be substituted for Gardenias when the latter are not available.

In 1939 we introduced Virginia Rose and Mrs. C. B. Johnson. Both were enthusiastically received and have been well liked. We are receiving numerous re-orders this season.

For 1940 we are offering John Briry a new dark pink of an even shade, deeper than My Love or Paragon. It has a 3½ in. flower, well formed, slightly fringed. It is unusually strong and erect and a vigorous and healthy producer. Our grower tells us it has produced over 99% first quality blooms all season and it will flower early and continuously.

Before recommending new carnations I make sure of their commercial merit and see them growing several times. The keeping and shipping qualities of new Carnations are most important. They must be free flowering with good stems and clean, healthy growers.

In addition to specializing in Carnations in this country, my export business on Carnations has been built up to considerable volume as a result of my recommendation of the best varieties introduced in America. I give particular attention to foreign orders as to special packing, and am familiar with regulations and other details regarding exporting, such as obtaining permits, certificates, etc.

When interested in new varieties write me and I will gladly give you my candid opinion.

ROMAN J. IRWIN.

NEW CARNATIONS FOR 1940

BERKSHIRE HILLS. Sport of Patrician, light salmon pink, similar to Laddie. Not patented.

CANDYSTICK. Sport of New Deal, white variegated with very pronounced rose stripes—very attractive. Not patented.

CHARM. "Charm" Seedling No. 9 originated by A. Rasmussen & Son. Previously named Hoosier Lad, now renamed "CHARM." Will be put on the market December, 1939, January and later 1940. "CHARM" is a Laddie seedling; same color as when Laddie is at its deepest and best; size almost as large as Laddie, but produces 50% more flowers than Laddie. Looks very good. Patented.

DARK PINK MAYTIME. Sport of light pink Maytime, same color as Ditchling the English variety. Has the same habits as Maytime. Not patented.

EDDIE G (Seedling). Deep pink. Very good producer, medium size flower.

HERMOSA. New light pink. Not patented.

JOHN BRIRY. Dark pink, a little darker than Ward with 3½-4½ in. blooms; long stiff stem, free flowering and a wonderful keeper. At the Boston Flower Show it kept longer than any other variety exhibited. Sold with a two-year patent agreement.

JOYCE (Seedling). New deep crimson. Flowers are large and beautifully formed. Good producer, very little splitting. (English variety.)

MARIBEL (Seedling). The largest Ward color pink yet introduced. For its size it produces well. It has only one fault—it splits badly. To prevent splitting you can grow fancy flowers by using our new pliable metal carnation band listed in catalog on Page 4. This Carnation is sold with a two-year agreement same as Virginia Rose and Mrs. C. B. Johnson.

SETH PARKER. Crimson, large flower, free bloomer. Not patented.

SNOW WHITE. A fine large white. Not patented.

WHITE MAYTIME. Sport of light pink Maytime, same habits. Not patented.

WHITE PETER FISHER. Sport of Pink Peter Fisher. Very good. Not patented.

VIRGINIA ROSE

DARK PINK SPORT OF VIRGINIA

Mr. C. B. Johnson paid \$2,000.00 for these two plants.

For description, see page 4

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

1939 CARNATION INTRODUCTIONS

CLARK'S BEAUTY (Seedling). Glowing dark Pink. Flowers average 3½ in. Does not split. Good keeper.

GARDENIA (Seedling). We named this beautiful fragrant white Carnation Gardenia because it can be used in corsages particularly when Gardenias are scarce. Gardenia is the largest pure snow white Carnation grown. A clean healthy grower. Flowers 4 inches and over. Good stem and a very good keeper.

LOCHINVAR (Seedling). A very beautiful novelty. Garnet with orchid. A clean grower, good stem, flowers 3½ inches.

MINUET (Seedling). Light pink. A little lighter than Maytime but larger in size.

OLIVETTE (Seedling). Pure white. 3-in. bloom of exceptionally high quality. Very high, full center. Perfectly symmetrical. Will not split. Calyx has six prongs instead of usual five. Petals are serrated. Blooms early and continuously, and is a heavy producer. Stem is straight and strong. Excellent keeper and shipper.

PHAROAH (Seedling). Orange is much deeper than in Barbara Brigham and variegation is only on edges of petals. Blooms measure from 3½ in. to 4½ in. across. An exceptionally beautiful novelty. Fine stem, firm calyx, very large. A splendid keeper.

ROSALIE (Seedling—patented). Bright shade of medium pink a little deeper and brighter than Betty Lou. Growth and flowers

are very free making fine plants in the field. Does not split. Flowers are the same size as King Cardinal which is the best red to date. Rosalie is sold under letters permit, same as Pink Treasure. Purchasers will be granted permission to propagate all they wish to plant for their own needs.

VIRGINIA ROSE. Dark Pink Sport of Virginia, a more pleasing shade than Mrs. C. W. Ward, which will blend in all kinds of floral work. Virginia Rose has all the same good qualities as Virginia in every way. We are receiving wonderful reports from all sections of the country. Many growers state they are sorry they did not buy more last year. Be sure you order some of this wonderful Carnation that does not split.

AQUILEGIA ROSE QUEEN L. S. F. G.....	3.00	10.00
ARMERIA BEE'S RUBY, 2½ in.....	3.00	10.00

June flower beds offer nothing more striking. This Armeria grows to a height of 18 to 24 in. On the tip of each stem are produced bright red flowers about 2 in. in diameter. In addition to garden value, the flowers are also very attractive in floral designs.

ARMERIA, GLORY OF HOLLAND. F. G.....	3.00	10.00
While Bee's Ruby is bright red, this variety is a good clear pink, making an ideal companion for the preceding. Flowers are about the same size. For vases or floral baskets these two varieties are very valuable. We recommend that you make a planting of both.		

ARMERIA CEPHALOTES RUBRA. F. G.....	3.00	10.00
ARMERIA, LARGE FLOWERING NEW HYBRIDS. F. G....	3.00	10.00
ARTEMESIA LACTIFLORA. F. G.....	2.50	7.00
ARTEMESIA SILVER KING. F. G.....	2.50	7.00
ASTER FRIKARTI, 2½ in.....	4.50	15.00

(Wonder of Stafra). Lavender-blue flowers from 2 to 2½ in. across, bloom from June 1st until the middle of November. Does exceedingly well in light shade and comes to perfection in full sun. A constant rich display of flowers is kept up the entire Summer. Flowers are excellent for cutting.

ASTER, STAR OF WARTBURG. F. G.....	3.00	10.00
In a planting of perennials, this Aster stands out by itself. In May and June it produces large lilac blue flowers with a striking orange center on 12 to 14 in. stems. Very valuable for cutting and wonderful keepers. Just recently it has been tried cut for forcing and has proved to be a real profit provider during the Winter months. For forcing purposes we will ship from December 1st on frost cured clumps ready for benching.		

BUDDLEIA PINK CHARMING. F. G.....	4.50	15.00
2¼ in.	3.50	12.00
New lavender-pink. Makes beautiful, bushy plant. Height 5 to 6 ft. and about same spread. Flowers large and make a solid round head opening full length. Blends beautifully with light blue Delphiniums or practically all seasonable flowers. Entirely different from any other varieties.		

BUDDLEIA DUBONNET. F. G.....	8.00	30.00
2¼ in.	4.50	15.00

	25	100
BUDDLEIA HARTWEGI. F. G.....	4.50	15.00
2¼ in.	3.00	10.00

The large, bright lavender panicles have remarkable substance and harmonize in arrangement with other Summer flowers. The flowers do not "sunburn." The tip flowers on the panicle open before the basal flowers have faded. The individual flowers are closely spaced on the panicles, imparting a compact and pleasing appearance. The foliage is very heavy and is rich dark green.

BUDDLEIA ILE DE FRANCE. F. G.....	4.50	15.00
2¼ in.	3.00	10.00

This is still the deepest colored, worth-while Buddleia. For brilliance of color, grace of its flower spikes and uniform habit of growth, this Buddleia is still one of the most popular. The plants develop into well branched, symmetrical bushes 3-4 ft. high; the individual flower spikes often measure 10 in. in length; color is a brilliant, rosy purple with a violet suffusion. Their fragrance adds another feature to their beauty.

CAMPANULA MEDIAS (Canterbury Bells). F. G.....	2.00	6.00
CAMPANULA CALYCANTHEMA (Cup & Saucer). F. G....	2.00	6.00

GLADIOLUS

To-na-cide Treated

Growing Gladiolus under Glass—Best results are obtained by planting not earlier than February 1 to 15, and the No. 1, first-size bulbs should be used. The bulbs are dug in late Fall and require a rest period until about February 1. By planting too early they are liable to become blind. Average time for blooming is three to four months after planting. Cultural directions on request.

PLEASE NOTE:

While we buy our Gladiolus bulbs from only the most reliable sources, we cannot give any guarantee as to their being free from Thrip or any other insects.

Whether they are free when planted or not, they may become infected very easily when growing. Most growers agree that for best results the bulbs should be soaked in Corrosive Sublimate before planting and sprayed while growing with Tartar Emetic.

We do not claim this is a "cure-all" but many growers tell us it has been the difference between a failure and a good crop.

Complete directions are furnished with both the Corrosive Sublimate and the Tartar Emetic. Prices are as follows:

Corrosive Sublimate.....\$0.35 an ounce; \$1.00 for 3 ounces
One ounce is sufficient for two to three thousand bulbs.

Tartar Emetic.....1 lb. for \$0.60; 5 lbs or over \$0.50 a lb.

One pound mixed with four pounds of brown sugar makes 25 gallons solution.

GLOXINIAS

All colors mixed extra choice strain.

TENUIFOLIUM

Delivery—November to Spring

A beautiful bright red Lily. Can be grown between your Carnations where their slender, stiff stems will not shade the Carnations. Or can be grown in flats. Will flower in 100 days from planting. Fine in retail work.

\$5.00 per 100, \$40.00 per 1000

CHINESE HEAVY TONKINS

Natural Color

Of even diameter throughout. Can withstand weather conditions
and the dampness of the soil better than wood. They are stronger
and better in appearance than the wooden stakes and much
cheaper. They are replacing the wooden stakes especially for out-
door staking of plants like Dahlias, Tomatoes, etc.

SUDBURY SOIL TEST KITS

MODEL A—Used by leading growers, nurserymen, greenkeepers,
and advanced amateurs. In permanent metal case. Three times
as much soil testing solution is contained in this kit, enough for
200 individual tests for nitrogen, phosphorus, potash and acidity.
A test tube rack, extra test tubes, special glass funnels, color
charts and a supply of filter paper are also included. \$18.50.

MODEL B—In permanent metal case. Contains sufficient chemical
for 60 individual tests for nitrogen, phosphorus, potash and
acidity. Case contains test tube rack, extra test tubes, special
glass funnels, color charts and a supply of filter paper. \$9.75.

CLUB MODEL—50 tests. Leather case. \$4.75.

ROOTONE

A Hormone powder, especially developed for rooting cuttings easier and faster. No solutions, no soaking; just dust and plant. Also recommended for prevention of damping-off by dusting Rootone along soil in thin layer, thereby killing fungi.

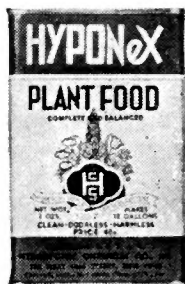

2-oz. jar\$1.00
1-lb. can 5.00

ROOT-GRO**A Natural Aid in Rooting Cuttings**

With Root-Gro, cuttings may be made with less care, thereby saving labor. Cuttings develop heavy root systems that are better adapted to withstand shipment and careless handling.

**HYPONEX**

In fine powdered form. With Hyponex-and-water, plants grow and flourish in clean sand, cinders or barren earth. Hyponex is ideal for hydroponics—the science of growing plants without soil. Complete directions furnished.

1 lb.\$10.00--makes 100 gallons
3 oz.40--makes 18 gallons

TRANSPLANTONE**The Vitamin Hormone Stimulant for Plants**

ROOTONE is quite different from TRANSPLANTONE. It is applied as a powder, not to roots, but to cuttings, seeds and bulbs before they are planted. TRANSPLANTONE is a powder applied in solution to the roots of growing plants.

Attaches between hose and hydrant to keep hose from breaking. Makes a flexible connection. Standard size.....\$1.00

APEX WATER BREAKER

Attaches to end of hose. Spreads water and enables user to easily control and direct flow with fingers.....\$0.25

**HORMODIN****"The Root-Forming Chemical"**

"Hormodin" is a hormone-like plant growth substance. Its principal use is to stimulate rapid root growth on cuttings. It has widespread use in propagating cuttings, whether rooted with ease, or normally rooted with difficulty. Many cuttings formerly impossible to propagate may now be rooted with the aid of Hormodin. Made in both powder and liquid form.

HORMODIN POWDER

Used by wetting end of cutting and dipping in powder. One ounce treats about 2500 cuttings of average size.

POWDER NO. 1

A general purpose powder especially good for Carnations, Roses, Poinsettias, Chrysanthemums, and similar types.

INSECTICIDES AND DISINFECTANTS

APHINE. Destroys green, black or white fly and most all leaf-sucking insects. Qt. \$1.10, gal. \$3.00.

ARSENATE OF LEAD. The standard spray or dust for quick, dependable control of practically all leaf-eating (not sucking) insects. 1 lb. carton 30c, 4 lb. bag 75c, 100 lbs. \$13.50.

BLACK ARROW (5000). A non-poisonous pyrethrum dust, effective against many insects. 10 lbs. \$3.35, 50 lbs. \$14.75, 100 lbs. \$26.75.

BLACK LEAF 40. A concentrated solution of nicotine sulphate. An excellent spray for aphids and sucking insects of all kinds. Lb. \$2.25, 2 lbs. \$3.25, 5 lbs. \$5.85, 10 lbs. \$10.60.

BONSUL Colloidal Sulphur, particles of infinitesimal proportions. 1 lb. \$1.00, 25 lbs. \$18.75.

BORDEAUX MIXTURE (Powder). Controls all fungus diseases. Can be used either for dusting or as wet spray. 4 lbs. 65c.

COPPER SOLUTION. For rust, blight, mildew, and most leaf diseases. Qt. \$1.50, gal. \$4.60.

CORROSIVE SUBLIMATE. For soaking Gladiolus Bulbs before planting. Complete directions furnished. 1 ounce is sufficient for 2 to 3 thousand bulbs. 35c an ounce, \$1.00 for 3 ounces.

CUPROCIDE. Before planting, protect your seed against "damping off" with a coat of Cuprocide-powder. Lb. \$1.00, 5 lbs. \$3.75, 20 lbs. \$12.00.

CYANOGAS (Calcium Cyanide). Very effective chemical fumigant. Controls aphids, thrip, white fly, scale, etc. 5-lb. tin \$3.00, 25-lb. tin \$10.00.

DN-SULFUR DUST No. 10. Especially recommended for dusting Carnations and other plants where a very fine powdered sulphur is desired. 10 lbs. \$3.50, 100 lbs. \$25.00.

DERRISOL. For control of sucking insects. 2 lbs. \$3.00, 10 lbs. \$12.00.

EVERGREEN. Non-poisonous. Highly effective against both chewing and sucking insects. Harmless to foliage. Gal. \$9.50.

FISH OIL SOAP. For mild forms of scale. Excellent for greenhouse spraying. Kills lice and sucking insects on all plants. 1 lb. 30c, 5 lbs. 95c.

FULEX. A liquid fumigator for use in Fulex lamps.

No. 400 is for Carnations; No. 300 is for Roses and mixed crops. Specify which. \$9.00 per gal.

No. 200 is for cleaning out empty houses. \$5.00 per gal.

FULEX DISK EVAPORATORS. \$1.50 each.

FULEX LAMP STOVES. \$2.00 each.

FUNGITROGEN. For mildew and black spots on Roses, Carnations, Snaps; for mildew on Sweet Peas and Hydrangeas. Gal. \$6.00.

FUME-TOBAC. Strong fumigation tobacco powder for burning in greenhouse. 25 lbs. \$4.50, 50 lbs. \$7.50, 100 lbs. \$14.00.

GENERAL BONOX. For control of red spiders, thrips, green fly, midge, leaf roller, etc. \$10.50 per gal., \$3.00 qt.

GRAPE DUST. For mold, mildew, or rust-mites, either in the greenhouse or in the open. Used by dusting. 5 lbs. \$1.25.

GRASSELLI STICKER SPREADER. For use with contact spraying insecticides. Gal. \$5.25.

HITOX. A concentrated spray of rotenone and pyrethrum. Qt. \$3.00, gal. \$9.00.

INSECTROGEN. Kills most leaf-eating insects such as worms, roller, beetles, etc. on Mums, Snaps, Calendulas, Carnations, Roses, etc. Gal. \$8.00.

KILSLUG. For control of snails and garden slugs. 125 doses 75c, 325 doses \$5.50.

LEMON OIL. Destroys mealy bug, scale, red spider. Gal. \$2.50.

LETHANE 440. Kills mealy bug eggs. Mix with soap for red spider. Qt. \$2.75, gal. \$7.00.

LETHANE SPREADER. Gal. \$1.80.

LORO. For controlling aphids, thrips and red spiders. Gal. \$10.50.

MULTICIDE. 50 per cent stronger than evergreen. Qt. \$2.50, gal. \$9.50.

NICO-FUME LIQUID. A free nicotine preparation used by leading growers for spraying against all leaf sucking insects. 4 lbs. \$5.75, 8 lbs. \$10.00.

NICO-FUME PAPER. This paper is treated with nicotine and gives off dense fumes of strong nicotine when ignited. Can of 24 sheets \$1.25, 144 sheets \$4.50, 288 sheets \$8.00.

NICO-FUME POWDER. For fumigating the greenhouse and conservatory. 5 lbs. \$3.35, 10 lbs. \$5.85.

NICO-FUME POWDER (Pressure Can). Lb. can 75c., case of 12 \$7.00, 1/2-lb. can 45c., case of 12 \$4.20.

NICO-FUME HOLDER. For holding the above when using. 85c. each.

NICO-ROTE. Three-way insect spray. Qt. \$4.00, gal. \$12.00.

PLANTOBAC. Finely powdered tobacco dust. Easily applied with gun or sifter. 100 lbs. \$3.00, 500 lbs. \$12.60.

POTASSIUM PERMANGANATE. A wonderful fungicide and insecticide to kill fungus on seeds, plants, and bulbs. Perfectly safe to use on seedlings. Instructions furnished. Lb. 85c., 5 lbs. \$4.00, 10 lbs. \$7.50.

POWDERED SULPHUR. For Carnations, Mums, etc. An excellent mildew remedy. 10 lbs. \$1.00, 50 lbs. \$3.50, 100 lbs. \$6.50, 250 lbs. \$15.00.

RED ARROW SPRAY. A contact spray fatal to both chewing and sucking insects. 1 oz. makes 4 to 8 gallons of spray. Qt. \$3.60, gal. \$10.70.

RED ARROW SOAP. For use with contact insecticides. Gal. \$1.75.

ROTECIDE. A complete spray. Kills thrip, Japanese and Asiatic beetles, and other insects. Non-poisonous. Qt. \$3.00, gal. \$8.00.

ROZOX. Spray for Roses and tender plants. Qt. \$3.00, gal. \$11.00.

SELOCIDE. For red spider. Gal. \$3.00.

SEMESAN. For control of damping off of seedlings, Gladioli and disinfection of seed bed soil. 1 lb. \$2.25, 5 lbs. \$9.90.

SLUG SHOT. For cabbage worms and all caterpillars and leaf-eating insects; for dusting all kinds of plants. 5 lbs. \$1.00.

SNAROL. For the control of cut worms, snails and slugs. 4 lbs. 85c., 50 lbs. \$8.00.

TARTAR EMETIC. For spraying Gladiolus Bulbs while growing. 1 lb. mixed with 4 lbs. brown sugar makes 25 gal. solution. 1 lb. for 60c., 5 lbs. or over 50c. a lb.

THRIP JUICE. For aphids, red spider, mealy bug, etc. Qt. \$1.10, gal. \$3.50.

TOBACCO DUST. For dusting. No. 1 Grade. 100 lbs. \$2.75, 500 lbs. \$12.50, 1000 lbs. \$22.50. F.O.B. New York or Lancaster, Pa.

TOBACCO STEMS (SHREDDED). Best quality of tobacco stems ground, containing all natural nicotine and fertilizer qualities. Fine for top dressing and improves soil texture. Kills many insects. 100 lbs. \$2.10, 500 lbs. \$8.75, 1000 lbs. \$16.25. Special price on large quantities. F.O.B. Lancaster, Pa.

TO-NA-CIDE

Patent No. 1,941,055

TO-NA-CIDE. A powder for sprinkling on, or mixing with the soil in greenhouses, coldframes, and outdoors. Forms a gas which destroys insects in the soil—thrip, mealy bug, wire worm, slugs, and certain other insects. Splendid for sprinkling Gladiolus bulbs and Dahlias. 5 lbs. \$1.25, 25 lbs. \$4.00, 50 lbs. \$7.00, 100 lbs. \$13.00; 200 lbs. or more at \$12.50 per 100. (See Back Cover.)

TRI-GEN. A spray for protection against plant insects and diseases. Small kit (makes 16 qts.) \$1.40. Large kit (makes 32 gals.) \$5.50.

VOLCK (Greenhouse). For scale, red spider, aphids, mealy bug, thrip, etc. Gal. \$2.00.

VOLCK (Nursery). Gal. \$2.00.

VOLCK (Garden). Gal. \$4.00.

WHALE OIL SOAP. Liquid. A good spreader. \$3.00 a gal.; 5 gals. \$12.00.

WILSON'S O. K. PLANT SPRAY. Powerful yet harmless; an effective spray for Roses, Mums, etc. For greenhouse and general outdoor spraying. Gal. \$3.00, 5 gals. \$12.00.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

Important Information

NOTICE—We endeavor to send out only the very best quality of bulbs, seeds, plants and cuttings, and do our utmost to assure you of stock true to name, but we do not warrant in any way, expressed or implied, the contents or the description, quality, productiveness, or any other matter of merchandise sold by us, and we will not in any way be responsible for the crop. If the purchaser does not accept these terms, the merchandise must be returned at once.

We recommend that shipments go by express, except very small shipments which can be readily mailed. Claims cannot be collected when cuttings are shipped through the mail, hence we recommend express, because a claim can be entered for damages through delay, etc. We mail small quantities only in cool weather—it is unsatisfactory to mail cuttings when the warm weather sets in.

TERMS—60 days net, less 2 per cent cash in 10 days, or less 2 per cent cash with order. **Postage** and **Express** charges must be paid by the customer.

ROMAN J. IRWIN.

POSTAGE—100 cuttings, add 15c. extra for postage. For each additional 100, add 5c. more. For **Special Handling Service** (which we highly recommend), add 25c. for each shipment—it's worth while.

CLAIMS FOR DAMAGES—You must enter a claim against the express company immediately. According to law the transportation companies are the agents of the buyer, and when goods are delivered to and accepted by such agencies the shipper's responsibility ceases. We will, however, gladly assist you in making your claim if you advise us.

PRICES—All prices in this catalog are subject to change without notice.

Unless otherwise quoted, we sell 250 of a variety at the 1000 rate. Orders for less than 100 add .50 to pro rata price.

MOST POPULAR SELLER PARAGON SPRAYER No. 3

(Capacity—12 Gallons)

Equipment—10 feet Special Spray Hose, 7½ feet Spray Pipe, 1 Brass Mist Spray Nozzle, 1 Brass Straight Spray Nozzle, 1 Steel Spray Nozzle for whitewash, coldwater paint, etc.

Price \$23.50

Without Truck, Price \$19.50

The world's most efficient and economical sprayer equipment for Nurserymen and Florists. The uses of a Paragon Sprayer are without limit. Will spray insecticides, fungicides, disinfectants, whitewash, coldwater paints, cement coatings, etc.—and do the job better.

WE HAVE HUNDREDS OF SATISFIED CUSTOMERS

12/5/39

"I had a great deal of trouble with Carnation Thrip all last season. I sprayed and dusted all the year with several different preparations. A short time after using **TO-NA-CIDE** the thrips were under control and have had no damage since."

Gus Obermeyer
Parkersburg, W. Va.

12/8/39

"We have had a lot of success with **TO-NA-CIDE** in control of sow bugs using it as per instructions. We had a bench of Snapdragons that were affected with Nematodes that our State Horticultural Department said would need steam sterilizing to kill. We gave the bench a double dose of **TO-NA-CIDE** and planted Snaps back in the same soil. We cut a full crop of flowers from these plants, so apparently, **TO-NA-CIDE** did the trick."

Lake View Gardens
Williams Bay, Wis.

9/26/39

"We used **TO-NA-CIDE** this summer for the exclusive purpose of killing what we call sow bugs. As far as we can see the results have been satisfactory. We find this material good for the control of strawberry beetles also."

Florex Gardens
North Wales, Penna.

9/18/39

"We have had good success controlling thrip on Glads; unable to raise them without it. We also used it on Carnations and about twice a year throughout our greenhouses."

Thermopolis Ghses. Co.
Thermopolis, Wyoming.
